13:00 **FREE AFTERNOON AND / OR DEPARTURE**

The Centre for Environmental Economics and Policy in Africa
University of Pretoria

THE RESOURCE ACCOUNTING NETWORK FOR EASTERN AND SOUTHERN AFRICA (RANESA)

SECOND TECHNICAL TRAINING AND RESEARCH WORKSHOP ON ENVIRONMENTAL ACCOUNTING

Funded by the Swedish International Development Cooperation
Agency's support to the CEEPA Natural Resource Accounting
Eastern and Southern Africa (NRAESA) Project

The Farm Inn Hotel, Pretoria, South Africa
30 July - 3 August 2006

It has been one year since the first technical training and research workshop was held under Phase 3 of RANESA in Maputo (Mozambique) with funding from the Swedish International Development Cooperation Agency (SIDA). In the intervening period, research teams from project countries collected data on the various NRA they are constructing. The main purpose of the present workshop is to equip teams with concepts and methods of NRA data analysis. In particular, the workshop will train participants on the methodology for assembling data in a format that is of relevance to NRA; analysis, synthesis and conclusion making; and finally on reporting. By doing this, the workshop intends to contribute to capacity building in the project countries. Beyond the practical orientation, the workshop is also graced by the presence of the RANESA International Technical Steering Group scheduled to make plenary presentations and also make technical inputs into the research work to be presented by the research teams. It is our hope that you will find your participation in this workshop a great learning experience.

DAY ONE SUNDAY, 30 JULY 2006

09:00 - 09:30 Registration of participants

Chairperson: Kassim Kulindwa

09:30 - 09:45 Opening and introduction to workshop objectives and program
